Volume 29, issue 6, December 2010

ELSEVIER

HUMAN MOVEMENT SCIENCE

CONTENTS

(Articles are abstracted/indexed in: Biological Abstracts/BIOSIS PREVIEWS, Current Contents: Social & Behavioral Sciences, Ergonomics Abstracts, Index Medicus/Medline, Physical Education Index, Psychological Abstracts/PsycINFO, Science Citation Index, Social Sciences Citation Index, SPORT Database/Discus. Also covered in the abstract and citation database SCOPUS®. Full text available on ScienceDirect®.)

E.K. Cressman, B.D. Cameron, M.Y. Lam, I.M. Franks and R. Chua, Movement duration does not affect automatic online control 871

J. Wu, J. Yang and T. Honda, Fitts' law holds for pointing movements under conditions of restricted visual feedback 882

T. Ceux, G. Montagne and M.J. Buekers, The integration of temporally shifted visual feedback in a synchronization task: The role of perceptual stability in a visuo-proprioceptive conflict situation 893

A. Boutin and Y. Blandin, On the cognitive processes underlying contextual interference: Contributions of practice schedule, task similarity and amount of practice 910

C.D. Osborough, C.J. Payton and D.J. Daly, Influence of swimming speed on inter-arm coordination in competitive unilateral arm amputee front crawl swimmers 921

M. Sim and J.-U. Kim, Differences between experts and novices in kinematics and accuracy of golf putting 932

A. Imura and M.R. Yeadon, Mechanics of the Fouetté turn 947

O.-D. Kang, Y.-C. Ryu, C.-C. Ryew, W.-Y. Oh, C.-E. Lee and M.-S. Kang, Comparative analyses of rider position according to skill levels during walk and trot in Jeju horse 956

T. Kagawa and Y. Uno, Necessary condition for forward progression in ballistic walking 964

M.D. Chang, E. Sejdić, V. Wright and T. Chau, Measures of dynamic stability: Detecting differences between walking overground and on a compliant surface 977

J.A. Fairley, E. Sejdić and T. Chau, The effect of treadmill walking on the stride interval dynamics of children 987

I.M. Albertsen, J.J. Temprado and E. Berton, Effect of haptic supplementation on postural stabilization: A comparison of fixed and mobile support conditions 999

T. Egerton, S.G. Brauer and A.G. Cresswell, Dynamic postural stability is not impaired by moderate-intensity physical activity in healthy or balance-impaired older people 1011

D. Levac, M.R. Pierrynowski, M. Canestraro, L. Gurr, L. Leonard and C. Neeley, Exploring children's movement characteristics during virtual reality video game play 1023
