

CONTENTS

**SKILL ACQUISITION RESEARCH AND APPLICATION
IN AUSTRALASIA**

Introduction	457
<i>Clare MacMahon and Damian Farrow</i>	
Sensitivity to fine-grained and coarse visual information: The effect of blurring on anticipation skill.	461
<i>Robin C. Jackson, Bruce Abernethy, and Simon Wernhart</i>	
The influence of processing time on expert anticipation.	476
<i>John Baker, Damian Farrow, Bruce Elliott, and Jacqueline Anderson</i>	
Differences in oculomotor behaviour between elite athletes from visually and non visually oriented sports.	489
<i>Stuart Morgan and John Patterson</i>	
Representative task design for the study of perception and action in sport.	506
<i>Matt Dicks, Keith Davids, and Chris Button</i>	
Developmental influences on the acquisition of tactical decision-making experience.	525
<i>Jason Berry and Bruce Abernethy</i>	
The influence of viewing perspective on decision-making and visual search in an invasive sport.	546
<i>David L. Mann, Damian Farrow, Richard Shuttleworth, and Melissa Hopwood</i>	
Knowledge base as a mechanism for perceptual-cognitive tasks: Skill is in the details!	565
<i>Clare MacMahon and Sue McPherson</i>	
Insights from ecological Psychiatry and Dynamical System. Theory can underpin a philosophy of coaching.	580
<i>Ian Renshaw, Keith Davids, Rick Shuttleworth and Jia Yi Chow</i>	
The use of motor learning in Biomechanics: A call for more collaboration.	603
<i>Alec Buttfield, Kevin Ball, and Clare MacMahon</i>	
End-point focus of attention: Learning the "Catch" in Rowing.	616
<i>Richard Parr and Chris Button</i>	
The paradoxical role of cognitive effort in contextual interference and implicit motor learning.	636
<i>Megan A. Rendell, Rich S.W. Masters, and Damian Farrow</i>	
Comment on the Special Issue. Tradition in a guide, not a jailer.	648
<i>Joseph Baker</i>
