

# JOURNAL OF APPLIED PHYSIOLOGY

JANUARY 2010/Volume 108, Number 1

## INVITED EDITORIALS

- A better picture of clearance in the nose (see "Noninvasive real-time measurement of nasal mucociliary clearance in mice by pinhole gamma scintigraphy," page 189)  
*T. E. Corcoran* 1
- Tax sugar, save muscle? (see "Impaired overload-induced hypertrophy in obese Zucker rat slow-twitch skeletal muscle," page 7)  
*T. J. McLoughlin* 3
- Mechanistic insights into how advanced age moves the site of  $\dot{V}O_2$  kinetics limitation upstream (see "Aging blunts the dynamics of vasodilation in isolated skeletal muscle resistance vessels," page 14)  
*D. C. Poole and T. I. Musch* 5
- 
- Impaired overload-induced hypertrophy in obese Zucker rat slow-twitch skeletal muscle  
*S. Paturi, A. K. Gutta, S. K. Kakarla, A. Katta, E. C. Arnold, M. Wu, K. M. Rice, and E. R. Blough,* 7
- Aging blunts the dynamics of vasodilation in isolated skeletal muscle resistance vessels  
*B. J. Behnke and M. D. Delp* 14
- Dose-dependent relationship between severity of pediatric obesity and blunting of the growth hormone response to exercise  
*S. R. Oliver, J. S. Rosa, T. D. C. Minh, A. M. Pontello, R. L. Flores, M. Barnett, and P. R. Galassetti* 21
- Resistive exercise versus resistive vibration exercise to counteract vascular adaptations to bed rest  
*N. T. L. van Duijnhoven, D. H. J. Thijssen, D. J. Green, D. Felsenberg, D. L. Belavý, and M. T. E. Hopman* 28
- Arterial properties along the upper arm in humans: age-related effects and the consequence of anatomical location  
*N. Bjarnegård and T. Länne* 34
- Facilitatory conditioning of the supplementary motor area in humans enhances the corticophrenic responsiveness to transcranial magnetic stimulation  
*M. Raux, H. Xie, T. Similowski, and L. Koski* 39
- Lower strength of the human posterior patellar tendon seems unrelated to mature collagen cross-linking and fibril morphology  
*P. Hansen, B. T. Haraldsson, P. Aagaard, V. Kovanen, N. C. Avery, K. Qvortrup, J. O. Larsen, M. Krogsgaard, M. Kjaer, and S. P. Magnusson* 47
- Rapid intravenous infusion of 20 ml/kg saline does not impair resting pulmonary gas exchange in the healthy human lung  
*G. K. Prisk, I. M. Olfert, T. J. Arai, P. D. Wagner, and S. R. Hopkins* 53
- (Continued)

Cover: The January through March 2010 Highlighted Topics series examines Pulmonary Physiology and Pathophysiology in Obesity in a series of review articles written by a panel of international experts. This series was conceived and edited by Guest Editors Dr. Anne Dixon, Dr. Fernando Holguin, and Coordinating Associate Editor Dr. Chris O'Donnell. We acknowledge Steve Graepel, illustrator of the cover design. This illustration is copyrighted by Steve Graepel and reproduced with permission.

(Contents continued)

- Elevations in ostensibly anabolic hormones with resistance exercise enhance neither training-induced muscle hypertrophy nor strength of the elbow flexors  
*D. W. D. West, N. A. Burd, J. E. Tang, D. R. Moore, A. W. Staples, A. M. Holwerda, S. K. Baker, and S. M. Phillips* 60
- Effect of acute sleep deprivation on vascular function in healthy subjects  
*F. Sauvet, G. Leftheriotis, D. Gomez-Merino, C. Langrume, C. Drogou, P. Van Beers, C. Bourrilhon, G. Florence, and M. Chennaoui* 68
- Central and peripheral contributors to skeletal muscle hyperemia: response to passive limb movement  
*J. McDaniel, A. S. Fjeldstad, S. Ives, M. Hayman, P. Kithas, and R. S. Richardson* 76
- Is the stabilization of quiet upright stance in humans driven by synchronized modulations of the activity of medial and lateral gastrocnemius muscles?  
*T. M. M. Vieira, U. Windhorst, and R. Merletti* 85
- Influence of acetaminophen on performance during time trial cycling  
*A. R. Mauger, A. M. Jones, and C. A. Williams* 98
- Eccentric contractions lead to myofibrillar dysfunction in muscular dystrophy  
*B. Blaauw, L. Agatea, L. Toniolo, M. Canato, M. Quarta, K. A. Dyar, D. Danielli-Betto, R. Betto, S. Schiaffino, and C. Reggiani* 105
- Impaired left and right ventricular function following prolonged exercise in young athletes: influence of exercise intensity and responses to dobutamine stress  
*L. Banks, Z. Sasson, M. Busato, and J. M. Goodman* 112
- Inhibition of calpain prevents muscle weakness and disruption of sarcomere structure during hindlimb suspension  
*J. J. Salazar, D. E. Michele, and S. V. Brooks* 120
- Multivariate adaptive regression splines models for the prediction of energy expenditure in children and adolescents  
*I. F. Zakeri, A. L. Adolph, M. R. Puyau, F. A. Vohra, and N. F. Butte* 128
- Time course expression of Foxo transcription factors in skeletal muscle following corticosteroid administration  
*J. E. Cho, M. Fournier, X. Da, and M. I. Lewis* 137
- Influence of cardiac shape on left ventricular twist  
*B. M. van Dalen, F. Kauer, W. B. Vletter, O. I. I. Soliman, H. B. van der Zwaan, F. J. ten Cate, and M. L. Geleijnse* 146
- Oxidative stress and gamma radiation-induced cancellous bone loss with musculoskeletal disuse  
*H. Kondo, K. Yumoto, J. S. Alwood, R. Mojarrab, A. Wang, E. A. C. Almeida, N. D. Searby, C. L. Limoli, and R. K. Globus* 152
- Spaceflight modulates expression of extracellular matrix, adhesion, and profibrotic molecules in mouse lung  
*J. Tian, M. J. Pecaut, J. M. Slater, and D. S. Gridley* 162
- Involvement of matrix metalloproteinases in the growth plate response to physiological mechanical load  
*A. Reich, S. S. Maziel, Z. Ashkenazi, and E. M. Ornan* 172
- Nasal nitric oxide and regulation of human pulmonary blood flow in the upright position  
*A. S. Crespo, J. Hallberg, J. O. Lundberg, S. G. E. Lindahl, H. Jacobsson, E. Weitzberg, and S. Nyrén* 181

---

## INNOVATIVE METHODOLOGY

- Noninvasive real-time measurement of nasal mucociliary clearance in mice by pinhole gamma scintigraphy  
*X. Hua, K. L. Zeman, B. Zhou, Q. Hua, B. A. Senior, S. L. Tilley, and W. D. Bennett* 189
