

JOURNAL OF APPLIED PHYSIOLOGY

JULY 2009/Volume 107, Number 1

INVITED EDITORIALS

- Intermittent hypoxia: keeping it real (see "A new model of chronic intermittent hypoxia in humans: effect on ventilation, sleep, and blood pressure," page 17; "Dynamic arterial blood gas analysis in conscious, unrestrained C57BL/6J mice during exposure to intermittent hypoxia," page 290)
B. J. Morgan 1
- HRT affects skeletal muscle contractile characteristics: a definitive answer? (see "Postmenopausal hormone replacement therapy modifies skeletal muscle composition and function: a study with monozygotic twin pairs," page 25)
G. L. Onambélé-Pearson 4
- Newton's force as countermeasure for disuse atrophy (see "Artificial gravity maintains skeletal muscle protein synthesis during 21 days simulated microgravity," page 34)
M. J. Rennie, S. M. Phillips, and E. A. Richter 6

REVIEW

- The interactions of some commonly consumed drugs with mitochondrial adaptations to exercise
M. M. Robinson, K. L. Hamilton, and B. F. Miller 8
-
- A new model of chronic intermittent hypoxia in humans: effect on ventilation, sleep, and blood pressure
R. Tamisier, G. S. Gilmartin, S. H. Launois, J. L. Pépin, H. Nespoulet, R. Thomas, P. Lévy, and J. W. Weiss 17
- Postmenopausal hormone replacement therapy modifies skeletal muscle composition and function: a study with monozygotic twin pairs
P. H. A. Ronkainen, V. Kovanen, M. Alén, E. Pöllänen, E.-M. Palonen, C. Ankarberg-Lindgren, E. Hämäläinen, U. Turpeinen, U. M. Kujala, J. Puolakka, J. Kaprio, and S. Sipilä 25
- Artificial gravity maintains skeletal muscle protein synthesis during 21 days of simulated microgravity
T. B. Symons, M. Sheffield-Moore, D. L. Chinkes, A. A. Ferrando, and D. Paddon-Jones 34
- Artificial gravity as a countermeasure to microgravity: a pilot study examining the effects on knee extensor and plantar flexor muscle groups
V. J. Caiozzo, F. Haddad, S. Lee, M. Baker, W. Paloski, and K. M. Baldwin 39
- Effects of artificial gravity during bed rest on bone metabolism in humans
S. M. Smith, S. R. Zwart, M. A. Heer, N. Baecker, H. J. Evans, A. H. Feiveson, L. C. Shackelford, and A. D. LeBlanc 47

(Continued)

Cover: The July through September 2009 Highlighted Topics series examines Respiratory Muscles in Chronic Obstructive Pulmonary Disease in a series of review articles written by a panel of international experts. This series was conceived and edited by Guest Editor Martin Tobin and Coordinating Associate Editor Andre De Troyer. We acknowledge Steve Graepel, illustrator of the cover design. This illustration is copyrighted by Steve Graepel and reproduced with permission.

This Journal is printed on "acid-free" paper.

(Contents continued)

Effects of 21 days of bed rest, with or without artificial gravity, on nutritional status of humans <i>S. R. Zwart, G. E. Crawford, P. L. Gillman, G. Kala, A. S. Rodgers, A. Rogers, A. M. Inniss, B. L. Rice, K. Ericson, S. Coburn, Y. Bourbeau, E. Hudson, G. Mathew, D. E. DeKerlegand, C. F. Sams, M. A. Heer, W. H. Paloski, and S. M. Smith</i>	54
Active middle-aged men have lower fasting inflammatory markers but the postprandial inflammatory response is minimal and unaffected by physical activity status <i>N. C. Dixon, T. L. Hurst, D. C. S. Talbot, R. M. Tyrrell, and D. Thompson</i>	63
A simple and valid method to determine thermoregulatory sweating threshold and sensitivity <i>S. N. Cheuvront, S. E. Bearden, R. W. Kenefick, B. R. Ely, D. W. DeGroot, M. N. Sawka, and S. J. Montain</i>	69
<i>NRF2</i> intron 3 A/G polymorphism is associated with endurance athletes' status <i>N. Eynon, M. Sagiv, Y. Meckel, J. A. Duarte, A. J. Alves, C. Yamin, M. Sagiv, E. Goldhammer, and J. Oliveira</i>	76
Vastus lateralis single motor unit EMG at the same absolute torque production at different knee angles <i>T. M. Altenburg, A. de Haan, P. W. L. Verdijk, W. van Mechelen, and C. J. de Ruiter</i>	80
Training improves the response in glucose flux to exercise in postmenopausal women <i>Z. A. Zarins, M. L. Johnson, N. Faghihnia, M. A. Horning, G. A. Wallis, J. A. Fattor, and G. A. Brooks</i>	90
Neuromuscular recovery pattern after medial collateral ligament disruption in rats <i>J. Laurin, E. Dousset, S. Mesure, and P. Decherchi</i>	98
Forced expiratory flows and volumes in intubated and paralyzed infants and children: normative data up to 5 years of age <i>B. S. von Ungern-Sternberg, D. Trachsel, T. O. Erb, and J. Hammer</i>	105
Increases in corticospinal responsiveness during a sustained submaximal plantar flexion <i>B. W. Hoffman, T. Oya, T. J. Carroll, and A. G. Cresswell</i>	112
Hindlimb unweighting induces changes in the p38 ^{MAPK} contractile pathway of the rat abdominal aorta <i>S. M. Summers, Y. Hayashi, S. V. Nguyen, T. M. Nguyen, and R. E. Purdy</i>	121
Effect of short-term high-intensity interval training vs. continuous training on O ₂ uptake kinetics, muscle deoxygenation, and exercise performance <i>B. R. McKay, D. H. Paterson, and J. M. Kowalchuk</i>	128
Nitric oxide and carbon monoxide lung transfer in patients with advanced liver cirrhosis <i>B. Degano, M. Mittaine, H. Guénard, J. Rami, G. Garcia, N. Kamar, C. Bureau, J.-M. Péron, L. Rostaing, and D. Rivière</i>	139
Taurine supplementation increases skeletal muscle force production and protects muscle function during and after high-frequency in vitro stimulation <i>C. A. Goodman, D. Horvath, C. Stathis, T. Mori, K. Croft, R. M. Murphy, and A. Hayes</i>	144
Improved predictive models for plasma glucose estimation from multi-linear regression analysis of exhaled volatile organic compounds <i>J. Lee, J. Ngo, D. Blake, S. Meinardi, A. M. Pontello, R. Newcomb, and P. R. Galassetti</i>	155
Effect of a peripheral nerve block on torque produced by repetitive electrical stimulation <i>O. Lagerquist, L. D. Walsh, J.-S. Blouin, D. F. Collins, and S. C. Gandevia</i>	161
A brief bout of exercise alters gene expression and distinct gene pathways in peripheral blood mononuclear cells of early- and late-pubertal females <i>S. Radom-Aizik, F. Zaldivar, Jr., S.-Y. Leu, and D. M. Cooper</i>	168
Role of calcitonin gene-related peptide (CGRP) in ovine burn and smoke inhalation injury <i>M. Lange, P. Enkhbaatar, D. L. Traber, R. A. Cox, S. Jacob, B. P. Mathew, A. Hamahata, L. D. Traber, D. N. Herndon, and H. K. Hawkins</i>	176
Airway wall attenuation: a biomarker of airway disease in subjects with COPD <i>G. R. Washko, M. T. Dransfield, R. S. J. Estépar, A. Diaz, S. Matsuoka, T. Yamashiro, H. Hatabu, E. K. Silverman, W. C. Bailey, and J. J. Reilly</i>	185

(Continued)

(Contents continued)

Effects of chronic hypoxia on soluble guanylate cyclase activity in fetal and adult ovine cerebral arteries <i>W. J. Pearce, J. M. Williams, C. R. White, and T. M. Lincoln</i>	192
Greater systemic lipolysis in women compared with men during moderate-dose infusion of epinephrine and/or norepinephrine <i>T. J. Horton, S. Dow, M. Armstrong, and W. T. Donahoo</i>	200
L-2-Oxothiazolidine-4-carboxylate reverses glutathione oxidation and delays fatigue of skeletal muscle in vitro <i>L. F. Ferreira, L. A. A. Gilliam, and M. B. Reid</i>	211
Spinal NMDA receptor activation is necessary for de novo, but not the maintenance of, A2a receptor-mediated phrenic motor facilitation <i>F. J. Golder</i>	217
Absence of caspase-3 protects against denervation-induced skeletal muscle atrophy <i>P. J. Plant, J. R. Bain, J. E. Correa, M. Woo, and J. Batt</i>	224
Motor unit control and force fluctuation during fatigue <i>P. Contessa, A. Adam, and C. J. De Luca</i>	235
Early brain swelling in acute hypoxia <i>D. J. Dubowitz, E. A. W. Dyer, R. J. Theilmann, R. B. Buxton, and S. R. Hopkins</i>	244
Application of muscle biopotential measurement for sustained, noninvasive blood glucose survey <i>A. Vol, O. Gribova, S. Berman, Y. Siman-Tov, and S. Efrati</i>	253
Swim training suppresses tumor growth in mice <i>P. W. M. Almeida, A. Gomes-Filho, A. J. Ferreira, C. E. M. Rodrigues, M. F. Dias-Peixoto, R. C. Russo, M. M. Teixeira, G. D. Cassali, E. Ferreira, I. C. Santos, A. M. C. Garcia, E. Silami-Garcia, U. Wisloff, and G. A. Pussieldi</i>	261
The prone position results in smaller ventilation defects during bronchoconstriction in asthma <i>R. S. Harris, T. Winkler, G. Musch, M. F. V. Melo, T. Schroeder, N. Tgavalekos, and J. G. Venegas</i>	266
Hyperinflation-induced cardiorespiratory failure in rats <i>J. A. Simpson, K. R. Brunt, C. P. Collier, and S. Iscoe</i>	275
AMPK activation is fiber type specific in human skeletal muscle: effects of exercise and short-term exercise training <i>R. S. Lee-Young, B. J. Canny, D. E. Myers, and G. K. McConell</i>	283

INNOVATIVE METHODOLOGIES

Dynamic arterial blood gas analysis in conscious, unrestrained C57BL/6J mice during exposure to intermittent hypoxia <i>E. J. Lee, M. E. Woodske, B. Zou, and C. P. O'Donnell</i>	290
Exhaled nitric oxide estimation by a simple and efficient noninvasive technique and its utility as a marker of airway inflammation in mice <i>T. Ahmad, U. Mabalirajan, D. A. Joseph, L. Makhija, V. P. Singh, B. Ghosh, and A. Agrawal</i>	295
Adaptation of the NDIR technology to ¹³ CO ₂ breath tests under increased inspiratory O ₂ concentrations <i>J. A. Vogt, U. Wachter, J. Mehrling, P. Radermacher, M. Georgieff, H. Fischer, U. Hölscher, M. Moede, and W. Fabinski</i>	302

HIGHLIGHTED TOPIC

The Respiratory Muscles in Chronic Obstructive Pulmonary Disease

Editorial: Introducing the Highlighted Topic series <i>A. De Troyer and M. J. Tobin</i>	308
Review: Pulmonary characteristics in COPD and mechanisms of increased work of breathing <i>S. H. Loring, M. Garcia-Jacques, and A. Malhotra</i>	309

(Continued)

(Contents continued)

- Review:** Effect of acute inflation on the mechanics of the inspiratory muscles
A. De Troyer and T. A. Wilson 315
- Review:** Respiratory muscle fiber remodeling in chronic hyperinflation:
dysfunction or adaptation?
T. L. Clanton and S. Levine 324

The Physiology and Pathophysiology of the Hyperbaric and Diving Environments

- Arterial and pulmonary arterial hemodynamics and oxygen delivery/extraction in normal humans exposed to hyperbaric air and oxygen
L. K. Weaver, S. Howe, G. L. Snow, and K. Deru 336

Regulation of Protein Metabolism in Exercise and Recovery

- Decreased muscle ACE activity enhances functional response to endurance training in rats, without change in muscle oxidative capacity or contractile phenotype
E. Habouzit, H. Richard, H. Sanchez, N. Koulmann, B. Serrurier, R. Monnet, R. Ventura-Clapier, and X. Bigard 346

POINT: COUNTERPOINT

The interpolated twitch does/does not provide a valid measure of the voluntary activation of muscle

- Point: The interpolated twitch does provide a valid measure of the voluntary activation of muscle
J. L. Taylor 354

- Counterpoint: The interpolated twitch does not provide a valid measure of the voluntary activation of muscle
A. de Haan, K. H. L. Gerrits, and C. J. de Ruiter 355

- Rebuttal from Taylor 357

- Rebuttal from de Haan, Gerrits, and de Ruiter 358

- Comments on Point:Counterpoint:** The interpolated twitch does/does not provide a valid measure of the voluntary activation of muscle
A. M. Horstman, R. M. Enoka, O. Girard, G. Millet, N. Babault, W. Herzog, S. Racinais, O. Girard, J. Duchateau, D. G. Behm, J. Lexell, M. Miller, J. M. Jakobi, S. A. Binder-Macleod, R. Perumal, L.-W. Chou, T. Kesar, L. Snyder-Mackler, S. C. Gandevia, L. Griffin, T. Shaikh, T. J. Carroll, A. G. Cresswell, K. G. Keenan, R. D. Herbert, and J. P. Folland 359

- Letters to the Editor:** Last Word on Point:Counterpoint: The interpolated twitch does/does not provide a valid measure of the voluntary activation of muscle
J. L. Taylor 367

- Last Word on Point:Counterpoint: The interpolated twitch does/does not provide a valid measure of the voluntary activation of muscle
A. de Haan, K. H. L. Gerrits, and C. J. de Ruiter 368

LETTERS TO THE EDITOR

- Steady-state venous return: residue in a recent model analysis of the notion that it is driven by elastic recoil of the venous system
G. L. Brengelmann 369

- Reply to Brengelmann
S. Magder 370

- Muscle oxygenation by near-infrared-based tissue oximeters
V. Quaresima and M. Ferrari 371

- Reply to Quaresima and Ferrari
A. M. Jones, R. C. Davies, L. F. Ferreira, T. J. Barstow, S. Koga, and D. C. Poole 372
