

INTERNATIONAL JOURNAL OF

**SPORT NUTRITION AND
EXERCISE METABOLISM**

Volume 19 • Number 1 • February 2009

Original Research

- Plasma Amino Acid Responses After Consumption of Beverages
With Varying Protein Type
*Tracey J. Smith, Scott J. Montain, Danielle Anderson,
and Andrew J. Young*..... 1
- Changes in Body Composition With Yogurt Consumption During
Resistance Training in Women
*Kimberly M. White, Stephanie J. Bauer, Kristopher K. Hartz,
and Monika Baldrige*..... 18
- Carbohydrate Ingestion Improves Performance of a New Reliable
Test of Soccer Performance
Kevin Currell, Steve Conway, and Asker E. Jeukendrup..... 34
- Duathlon Performance Unaltered by Short-Term Changes in Dietary
Fat and Carbohydrates
*José Moncada-Jiménez, Eric P. Plaisance, Michael L. Mestek,
Lance Ratcliff, Felipe Araya-Ramírez, James K. Taylor,
Peter W. Grandjean, and Luis F. AragónVargas*..... 47
- Improved Cycling Time-Trial Performance After Ingestion of a
Caffeine Energy Drink
*John L. Ivy, Lynne Kammer, Zhenping Ding, Bei Wang,
Jeffrey R. Bernard, Yi-Hung Liao, and Jungyun Hwang*..... 61
- Conjugated Linoleic Acid Combined With Creatine Monohydrate
and Whey Protein Supplementation During Strength Training
*Stephen M. Cornish, Darren G. Candow, Nathan T. Jantz,
Philip D. Chilibeck, Jonathan P. Little, Scott Forbes,
Saman Abeysekara, and Gordon A. Zello*..... 79
- Dietary Supplement Use Among Elite Young German Athletes
*Hans Braun, Karsten Koehler, Hans Geyer, Jens Kleinert,
Joachim Mester, and Wilhelm Schänzer*..... 97
- Online Preview**..... 110
