- 263 Repeated Reading Interventions for Students With Learning Disabilities: Status of the Evidence
Reviewers evaluated studies on repeated reading as an approach for improving reading fluency for students with or at risk for learning disabilities and determined that the intervention is not supported currently as an evidence-based practice.
David J. Chard, Leanne R. Ketterlin-Geller, Scott K. Baker, Christian Doabler, and Chanisa Apichatabutra
- 285 Evaluating the Evidence Base for Cognitive Strategy Instruction and Mathematical Problem Solving
Although the single-subject research studies reviewed addressed the majority of quality indicators, cognitive strategy instruction was not found to be an evidence-based practice for mathematical problem solving in special education.
Marjorie Montague and Samantha Dietz
- 303 Teaching Writing to At-Risk Students: The Quality of Evidence for Self-Regulated Strategy Development
The authors found that self-regulated strategy development was an evidence-based practice for students with and at risk for learning disabilities on the basis of both single-subject and group experimental research.
Scott K. Baker, David J. Chard, Leanne R. Ketterlin-Geller, Chanisa Apichatabutra, and Christian Doabler
- 321 An Examination of the Evidence Base for Function-Based Interventions for Students With Emotional and/or Behavioral Disorders Attending Middle and High Schools
The authors reviewed the body of literature on functional assessment-based interventions conducted with secondary-age students with emotional and/or behavioral disorders and found that the practice was not evidence-based according to the proposed guidelines.
Kathleen Lynne Lane, Jemma Robertson Kalberg, and Jenna Courtney Shepcaro

- 343 Using Time Delay to Teach Literacy to Students With Severe Developmental Disabilities
Analysis of 30 single-subject research studies evaluating the effect of time delay on sight word and picture recognition for individuals with severe developmental disabilities suggests that time delay is an evidence-based practice.
Diane Browder, Lynn Ahlgrim-Dezell, Fred Spooner, Pamela J. Mims, and Joshua N. Baker
- 365 Determining Evidence-Based Practices in Special Education
Approaches for establishing evidence-based practices in special education and related fields are described. The five reviews reported in this issue are then analyzed, yielding recommendations for refining how evidence-based practices are established in special education.
Bryan G. Cook, Melody Tankersley, and Timothy J. Landrum

STATEMENT OF PURPOSE

Exceptional Children, an official journal of the Council for Exceptional Children, publishes original research and analyses that focus on the education and development of exceptional infants, toddlers, children, youth, and adults. This includes descriptions of research, research reviews, methodological reviews of literature, data-based position papers, and policy analyses. *Exceptional Children* publishes quantitative, qualitative, and single-subject design studies. The journal also includes reports of official actions of the governing bodies of CEC.

Selection of manuscripts for the publication is based on a blind peer review process (the identity of the authors not known to the reviewers). Reviewers evaluate manuscripts for the importance of the work, including adequacy of the rationale for the study or paper, scope and adequacy of the literature review, soundness of the methods, educational implications, and quality of writing. Author guidelines are available from the Editor or from CEC headquarters.

Four copies of all manuscripts as well as an electronic copy on a 3½" disk or CD (Microsoft Word or RTF file) should be submitted to Steve Graham, Editor, *Exceptional Children*, Vanderbilt University, P.O. Box 228, Department of Special Education, Nashville, TN 37203. Authors should include a cover letter indicating that the manuscript has not been previously published and is not currently under consideration elsewhere. The cover letter must also indicate if data from the manuscript is part of a larger study or if any part of the data has been included in another paper.

EXCEPTIONAL CHILDREN (ISSN 0014-4029) is published 4 times per year in the Fall, Winter, Spring, and Summer by the Council for Exceptional Children, 1110 North Glebe Road, Suite 300, Arlington, Virginia 22201-5704. Members' dues to the Council for Exceptional Children include \$24.00 for annual subscription to EXCEPTIONAL CHILDREN and \$36.00 for TEACHING EXCEPTIONAL CHILDREN. Subscription to EXCEPTIONAL CHILDREN is available without membership; U.S. institution/library annual subscription \$155, Canada \$160, foreign air \$190. Single copy price is \$25.00 (within last 3 years). U.S. periodicals postage is paid at Arlington, Virginia 22204 and additional mailing offices.

Canada Post International Publication Mail Product postage paid at Ottawa, Ontario, Canada, under agreement #40021012.

POSTMASTER: Send address changes to *Exceptional Children*, 1110 North Glebe Road, Suite 300, Arlington, Virginia 22201-5704.
