

ORIGINAL ARTICLES

**Low cardio/respiratory fitness as an independent predictor of metabolic syndrome in Korean young men**

J. Lee · S.-U. Kim · H.-S. Kang 633

**Quantifying the mechanical work of resting quadriceps muscle tone**

W.P. McKay · P.D. Chilibeck · B.L.F. Daku · B. Lett 641

**Effect of body tilt angle on fatigue and EMG activities in lower limbs during cycling**

M. Egaña · K. Ryan · S.A. Warmington · S. Green 649

**Muscle oxygenation and glycolysis in females with trapezius myalgia during stress and repetitive work using microdialysis and NIRS**

G. Sjøgaard · L. Rosendal · J. Kristiansen · A.K. Blangsted · J. Skotte · B. Larsson · B. Gerdle · B. Saltin · K. Sjøgaard 657

**Cardiovascular responses to railway noise during sleep in young and middle-aged adults**

P. Tassi · M. Saremi · S. Schimchowitsch · A. Eschenlauer · O. Rohmer · A. Muzet 671

**Intense physical exercise increases systemic 11 $\beta$ -hydroxysteroid dehydrogenase type 1 activity in healthy adult subjects**

A. Dovio · E. Roveda · C. Sciolla · A. Montaruli · A. Raffaelli · A. Saba · G. Calogiuri · S. De Francia · P. Borriore · P. Salvadori · F. Carandente · A. Angeli 681

**Development of an equation to predict muscle volume of elbow flexors for men and women with a wide range of age**

R. Akagi · Y. Takai · E. Kato · T. Wakahara · M. Ohta · H. Kanehisa · T. Fukunaga · Y. Kawakami 689

**Association of heart rate recovery after exercise with indices of obesity in healthy, non-obese adults**

U. Dimkpa · J.O. Oji 695

**The effects of progressive dehydration on strength and power: is there a dose response?**

L.D. Hayes · C.I. Morse 701

**Less indication of muscle damage in the second than initial electrical muscle stimulation bout consisting of isometric contractions of the knee extensors**

A. Aldayel · M. Jubeau · M.R. McGuigan · K. Nosaka 709

**Alterations of the cortisol quiescent period after experimental night work with enforced adaptation by bright light and its relation to morningness**

B. Griefahn · S. Robens 719

**Both flow-mediated vasodilation procedures and acute exercise improve endothelial function in obese young men**

W. Zhu · J. Zeng · J. Yin · F. Zhang · H. Wu · S. Yan · S. Wang 727

**Optimization of high intensity interval exercise in coronary heart disease**

T. Guiraud · M. Juneau · A. Nigam · M. Gayda · P. Meyer · S. Mekary · F. Paillard · L. Bosquet 733

**Ventilatory function in breath-hold divers: effect of glossopharyngeal insufflation**

F. Lemaître · E. Clua · B. Andréani · I. Castres · D. Chollet 741

**Muscle hypertrophy and increased expression of leptin receptors in the musculus triceps brachii of the dominant arm in professional tennis players**

H. Olmedillas · J. Sanchis-Moysi · T. Fuentes · A. Guadalupe-Grau · J.G. Ponce-González · D. Morales-Alamo · A. Santana · C. Dorado · J.A.L. Calbet · B. Guerra 749

**Respiratory muscle endurance training: effect on normoxic and hypoxic exercise performance**

M.E. Keramidis · T. Debevec · M. Amon · S.N. Kounalakis · B. Simunic · I.B. Mekjavic 759

**Myogenic regulatory factor response to resistance exercise volume in skeletal muscle**

M.J. Drummond · R.K. Conlee · G.W. Mack · S. Sudweeks · G.B. Schaalje · A.C. Parcell 771

**Critical environmental limits for exercising heat-acclimated lean and obese boys**

K.A. Dougherty · M. Chow · W. Larry Kenney 779

**Increased p70<sup>s6k</sup> phosphorylation during intake of a protein-carbohydrate drink following resistance exercise in the fasted state**

L. Deldicque · K. De Bock · M. Maris · M. Ramaekers · H. Nielsens · M. Francaux · P. Hespel 791

**Intermittent versus constant aerobic exercise: effects on arterial stiffness**

N. Tordi · L. Mourot · E. Colin · J. Regnard 801

**Respiratory muscle training reduces the work of breathing at depth**

A.D. Ray · D.R. Pendergast · C.E.G. Lundgren 811

**Effects of strength training with eccentric overload on muscle adaptation in male athletes**

B. Friedmann-Bette · T. Bauer · R. Kinscherf · S. Vorwald · K. Klute · D. Bischoff · H. Müller · M.-A. Weber · J. Metz · H.-U. Kauczor · P. Bärtsch · R. Billeter 821

**Increased cardiovascular reactivity to the cold pressor test is not associated with increased reactivity to isometric handgrip exercise**

K. Moriyama · H. Ifuku 837
